# Introduction

TI Design Project: one of two final modules of TI

two components:

- ▶ Design Component (10 EC)
- ▶ Reflection Component (5 EC)

offered twice a year (quartile 1 and 3)

# Design Component

- ▶ groups of 3-5 students (ideal: 4)
- ▶ produce working product
- ▶ requirements by client (inside or outside university)
- ▶ supervised by teacher
- ▶ assessed by teachers
- ▶ goal: show mastery of entire design trajectory
- ▶ set of deliverables (a.o. proposal, design report, manual, poster)
- ▶ deliverables in English (maybe manual in Dutch)

Important requirement: product finished in time!!

# Reflection Component

intended to raise students awareness of the philosophical and ethical issues raised by the research component

- ▶ 3 EC design reflection (group work)
- ▶ 2 EC elective (individual)

# Organization Design Component

Week -1: students form groups, select project (see next slide).

In the last weeks, a presentation should be given at the chair of the supervisor

Last week: poster presentations at final meeting

To be handed in at BOZ:

- ▶ design report
- ▶ presentation slides
- ▶ poster

In addition: upload design report and poster on Bachelor Showcase

# You are responsible

Important: you are responsible for everything!!

- ▶ for all planning
- ▶ for all communication
- ▶ for clearing all unclarities
- ▶ for solving all unforeseen problems
- ▶ for spending the right amount of time
- ▶ for getting the most out of your supervisor - a busy person, sometimes distracted, and sometimes absent
- ▶ for not losing time - 10 weeks is sufficient, but only if you do not lose time

Complaining is futile - you are responsible!

And do not say I did not warn you!

# Assessment

Criteria for assessment: assessment form (on Canvas)

Group work, but: individual contributions should be indicated in design report

it is possible that individual grade is different:

- ▶ on initiative of supervisor
- ▶ on initiative of group (green and red card procedure, see Canvas)
  
- ▶ design component grade: min. 5.5, weight 66.7%
- ▶ reflection component grade: min. 5.5, weight 33.3%

Grading design component: by own supervisor plus input from other supervisor

# Subscription and planning

Group makes appointments with supervisor for meetings (usually weekly)

In addition obligatory meetings (online):

- ▶ kickoff in week 1
- ▶ peer review meetings in week 3, 5, 7, 9
- ▶ final meeting (poster presentations): week 10

Tip from previous generation: start testing early!

**IMPORTANT:** start writing your design report early - it always takes more time than you expect!!!
